

My days in Holland.

My name is Jelena Djukic. I lived in town called Gouda with Klarenbeek family. There were four members in that family: mother, two daughters, and one son. They had two cats and two turtles. I liked the food. They really made my stay there very pleasant. We made some bracelets to each other. There was a garden behind the house and a park in which we spend most of the time. I have made many new friends in Holland. They took me to the swimming pool, horse races, drove a boat and took a ferry across the river. We went for shopping every day and they bought me a lot of presents. They also allowed me to draw and paint with them and they showed me the nature in Holland. Those days will stay in my memory for as long as I live. I will never forget this beautiful family and my stay with them in Holland. Thank you all very much. Jelena. with love.

My days in Holland

My and my friend stayed with family van Boven. There we meet two beautiful people Mrs Vil and Mr Pit. They showed us how good hosts they are. We talked about our trip and our family in Bosnia.

They took us to do some sightseeing. They showed us many new things to us in their house and gave us a room just for the two of us. We meet their sons who brought us Sony play station so we could play games. We also had the chance to meet Pit's mother, pleasant old lady full of love and understanding. We visited amusement park, swimming pools and we even went to the seaside.

At the park we saw trains and pirate ship. They took us to "De Kip", Feyenord's stadium to see them playing football. Boat ride down the river was also very interesting and nice.

I want to thank you on behalf of my family and myself for great and pleasant moments I spend with you.

Your friend forever, Rade Jerkic.

My days in Holland

Hello, my name is Mernama Pandur. I went to Holland recently to spend time at one beautiful family there. I had really good time there. I meet Iris, Nick, Zikica, Koni, Frans and Hane.

They were very good to me. In Holland I saw many nice things. I would like to go again. The best time I had at "Elephans" where I spend the whole day.

I would love to see again all those kind people where I lived. I hope it will happen one day. I will never forget those days spent with them. Holland is very interesting country. I saw watermills, huge fields and a lot of cows. The cheese was also great and tasty.

I went to swimming pool and I drove bicycle almost every day. Every morning we went to Spar and I remember one beautiful big phone.

I want to thank to the family and all the good people from Holland who helped our trip to Holland.

My days in Holland

First of all I would like to say hello because you are beautiful family and you received me very well. I had great time at your house even though I was a little scared, because it was all new for me. I spend hours thinking what kind of family you are and how will I fit in with you. With you I saw many great places I will never forget. I look at the pictures all the time.

When I got home I told to my family and friends how good you were and that I could stay even longer if that was possible. All the things I experienced with you will stay in my memory forever. I would like to see you again sometimes.

All the best from me and my family for all of you who made all those days in Holland unforgettable for me.

Nikola Hajdukovic-Kitovnice

My days in Holland

Hi, my name is Adnan Sabic.
When I came to Holland I made a lot of new friends. I like their customs, culture and everything. I also made some friends from My school. I had nice time in Holland. I meet two beautiful people: Bernard and Esther my hosts and their two sons Joren and Tanek. They are really good children. There I drove a canoe, ride horses and bicycles, went to the seaside... I liked Holland every day even more. I wish if I could go there again when I grow up to visit those good people. Their house is in Nieuwe Tonge. I enjoyed their food especially omelets. They bought me water rifle, slippers, toys... I enjoyed when we visited Madurodam, a macquet of Holland in Haag. We went camping to their grandparents. It is impossible for me to describe all that I saw in Holland by words. It was really hard for me to leave them, but I was glad to see my family again. That mixture of feelings was something I have never felt before. This Holiday was nice happening I will remember forever.

My days in Holland

Hello, my dear friends. Once again I want
