

Thank you good people!

My trip to Holland

When I came to Holland I met one lovely family and stayed with them for almost three weeks. They are very nice and kind. They had a big river in front of their house. We went for swimming at the ocean very first day with them. We visited restaurants, played computer games, shopping and in park. I really had great time with that family and I will never forget their politeness and kindness.

Thanks again for everything,

My trip to Holland

My days in Holland were super because I met wonderful people and made new friendships with them. They showed me countryside and took me to park, pools, I even drove canoe. I have got a bunch of nice presents which will remind me of them for the rest of my life. The fair was great where they took me one day, I played a lot of different games, climbing to the top of the tower, etc... They took me for fishing and swimming many times.

All the problems were forgotten for those three weeks in their family because I was surrounded with love and affection from the people I have just met. I missed my parents the most but those lovely people helped me to feel safe and loved. Holland is a nice state, I will always remember it and who knows maybe I will have the opportunity to go again sometimes.

Thank you good people,

My trip to Holland

When I came to Holland I met Holland family and spent beautiful time with them. I met Anica, Henric, Luka who is a ten month old baby. I had great time: I went on a boat ride, I was riding a bike and motorcycle. I will never forget it.

Lejla was in the same family with me and she also had unforgettable days in Holland. We got a lot of presents and I do not have enough words or paper to describe all my feelings from that visit to your beautiful country. I will always remember it and tell everybody about the people and your country. Thank you for making my stay in Holland like a dream that came true.

My trip to Holland

My visit to Holland was really beautiful. I was in the same family with Emina from my school. She is in seventh grade now.

I met Amica, Luka and Hendric. I spent most of my time with Luka. Luka is a baby so we were playing all the time. A lot of interesting things happened to me and that experience is really precious for me. A beautiful country like yours really needs to be seen and remembered.

All of you will be in my mind and will tell about you everyone in my school. My friends were delighted with the stories I have told them when I came back and they are all sending you regards and all the best.

My trip to Holland

To Holland we went by plane and that was the first time that I even saw that kind of plane alive. When we came family members were there to welcome us and take us to their homes, where we met their sons, daughters and other family members.

They took us to swimming pools, Spiderman club, bike rides, bowling, etc... The first meeting was on a farm where we could ride on a boat, swim and cross with a rope across the channel.

It was really great to have that kind of fun.
